DETAILED ACTION

1. The Amendment and IDS filed by Applicant on 08/01/2007 and 10/12/2007 have been entered.

Response to Arguments

2. Applicant's arguments filed on 08/01/2007 have been fully considered and they are found unpersuasive.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-4 and 6-9 remain rejected under 35 U.S.C. 102(b) as being anticipated by Krom, U.S. Patent No. 6,437,450 (hereinafter "Krom"). Krom teaches a nanoparticle with a polystyrene inner layer and polydiene outer layer with a functional group associated with the outer layer. See Krom, col. 4, lines 34-63. Krom further teaches the use of

Art Unit: 1796

crosslinking agents. See col. 3, lines 20-34. The Applicant argues Krom teaches control agents that do not functionalize the outer layer of the nanoparticles. The Examiner disagrees. Krom teaches control agents or randomizing modifiers that include reactive amines and diamines. Taking into consideration the broad term "functionalize," the Examiner contends the amines and diamines react to functionalize the nanoparticle.

5. Claim 5 is objected to for depending on a rejected base claim because Krom does not teach hydrogenating the conjugated diene monomer units.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

7. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated

Art Unit: 1796

from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
